

# DALI PHY Module

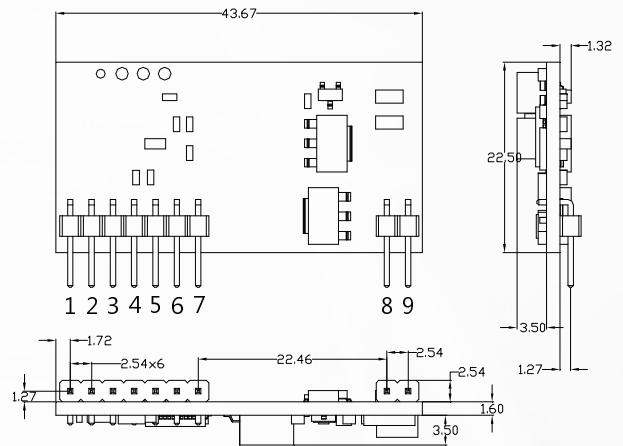

## Features

- Compatible with IEC-62386-101 102 207(DALI) international standards.
- Compatible with Philips, OSRAM, Siemens, and Tridonic central control system.
- Built-in DALI PHY interface and over voltage protection (OVP) circuits (AC100V~277V input protection).
- By way of DALI dimming commands to generate DC 0-5V PWM voltage outputs.
- Low power consumption 5V@20mA.

## Applications

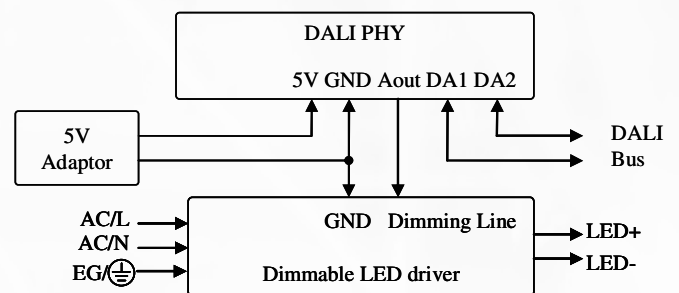

- Communication interface for DALI device.

## Dimensions (Unit: mm)

43.67(W)×22.50(L)×7.69(H)

## Wiring

## Model List

Model	Type	Operating Temperature	Control Interface	Input/Output
AO-1312A	5V	-10 ~ 70°C	DALI (IEC-62386) / PWM	DC/DC
